

## Tanvi Menon

### Found bugs or issues

#	Issue	Description	Expected Behavior
1	Reset Button doesn't work	"RESET" button does not get tapped.	Should reset the changes to default
2	Clustering Tab doesn't work	Reloads same data, no visible change	Should apply clustering logic with visual change
3	Save button lacks feedback	No success message after save	Should show "Saved" confirmation
4	Profile Image not displayed	Top-right user icon shows image emoji or blank	Should display initials or fallback image
5	Compare Tab Confusing	No visual feedback until manual selection	Should highlight options or give instructions
6	Some filters doesn't enable	Certain filters don't load any data	Should show filtered data

### Regression checklist:
